REFINED PETROLEUM PRODUCTS

1966

Special supplement with revised weights, figures and cumulative figures for the entire year

Presented to the subject at
The Bureau of Trade and Commerce

NOTES

1. Propane and propane mixes and Butane and butane mixes:

Due to a change in concept, the above tables have been revised in this issue.

Formerly, the statistics in the lines "Transfers-Inter-product", "Domestic disappearance" and "Net sales in Canada" contained both refinery and gas processing plant product data.

For 1966, however, all receipts, transfers and sales of gas processing plant product have been deleted and these tables represent refinery production and disposition only.

2. Imports of petroleum products, Canada:

The discrepancy between the import figures in Table 3 and those contained in Table 4, (which are compiled from custom's entries by the External Trade Division of the Bureau of Statistics), is due in part to timeliness.

The influencing factors are:

- (a) The External Trade Division's monthly "cut off" date in the preparation of their material is the 25th of the reporting month while the import data in Table 3 is compiled on a calendar month basis.
- (b) The refiners responding to the Manufacturing and Primary Industries Division survey may base their reported imports on invoices received in a particular month, when in fact the product may be held in bond at the port facilities and only admitted through customs at a later date.

3. Companion publications

Following is a list of related publications which may be of benefit to the reader. Requests for copies of any of these should be addressed to Information Division, Dominion Bureau of Statistics, Ottawa. The title of the publication, the catalogue number and the quantity desired should be carefully noted to avoid delay. Remittance, in the form of cheque or money order should be included with the order, made payable to the Receiver General of Canada.

- (a) Refined Petroleum Products (monthly) Catalogue No. 45-004. Price - \$3.00 yr.

This publication contains data on production, imports, inventories, exports and sales in Canada, by kind of product, by province or region collected monthly from all refiners and major marketer-distributors.

- (b) Refined Petroleum Products Volume II, Consumption of Petroleum Products. Catalogue 45-208 (annual). Price .50 copy.

This publication contains sales by kind of consumer, i.e. residential, industrial, government etc., by product, by province or region and is a further extension of the sales as published in the monthly and annual Refined Petroleum Products.

- (c) Canadian Crude Oil Requirements (quarterly), Service Bulletin, IND-SB-(2), Price \$5.00 per year.

This Service Bulletin contains the actual and anticipated receipts by refineries of crude oil and equivalent by province or region for specified months, with comparative totals for the previous year.

NOTES

1. Imports of petroleum products, Canada

The discrepancy between the import figures in Table 3 and those contained in Table 4, (which are compiled from custom's entries by the External Trade Division of the Bureau of Statistics), is due in part to timeliness.

The influencing factors are:

- (a) The External Trade Division's monthly "cut off" date in the preparation of their material is the 25th of the reporting month while the import data in Table 3 is compiled on a calendar month basis.
- (b) The refiners responding to the Manufacturing and Primary Industries Division survey may base their reported imports on invoices received in a particular month, when in fact the product may be held in bond at the port facilities and only admitted through customs at a later date.

2. Companion publications

Following is a list of related publications which may be a benefit to the reader. Requests for copies of any of these should be addressed to Information Division, Dominion Bureau of Statistics, Ottawa. The title of the publication, the catalogue number and the quantity desired should be carefully noted to avoid delay. Remittance, in the form of cheque or money order should be included with the order, made payable to the Receiver General of Canada.

- (a) Refined Petroleum Products (monthly) Catalogue No. 45-004. Price - \$3.00 yr.

This publication contains data on production, imports, inventories, exports and sales in Canada, by kind of product, by province or region collected monthly from all refiners and major marketer-distributors.

NOTES

1. Imports of petroleum products, Canada

The discrepancy between the import figures in Table 3 and those contained in Table 4, (which are compiled from custom's entries by the External Trade Division of the Bureau of Statistics), is due in part to timeliness.

The influencing factors are:

- (a) The External Trade Division's monthly "cut off" date in the preparation of their material is the 25th of the reporting month while the import data in Table 3 is compiled on a calendar month basis.
- (b) The refiners responding to the Manufacturing and Primary Industries Division survey may base their reported imports on invoices received in a particular month, when in fact the product may be held in bond at the port facilities and only admitted through customs at a later date.

2. Companion publications

Following is a list of related publications which may be a benefit to the reader. Requests for copies of any of these should be addressed to Information Division, Dominion Bureau of Statistics, Ottawa. 1. Imports of petroleum products, Canada

The discrepancy between the import figures in Table 3 and those contained in Table 4, (which are compiled from custom's entries by the External Trade Division of the Bureau of Statistics), is due in part to timeliness.

The influencing factors are:

- (a) The External Trade Division's monthly "cut off" date in the preparation of their material is the 25th of the reporting month while the import data in Table 3 is compiled on a calendar month basis.
- (b) The refiners responding to the Manufacturing and Primary Industries Division survey may base their reported imports on invoices received in a particular month, when in fact the product may be held in bond at the port facilities and only admitted through customs at a later date.

2. Companion publications

Following is a list of related publications which may be a benefit to the reader. Requests for copies of any of these should be addressed to Information Division, Dominion Bureau of Statistics, Ottawa. The title of the publication, the catalogue number and the quantity desired should be carefully noted to avoid delay. Remittance, in the form of cheque or money order should be included with the order, made payable, to the Receiver General of Canada.

- (a) Refined Petroleum Products (monthly) Catalogue No. 45-004.

This publication contains data on production, imports, inventories, exports and sales in Canada, by kind of product, by province or region collected monthly from all refiners and major marketer-distributors.

- (b) Refined Petroleum Products Volume 11, Consumption of Petroleum Products. Catalogue 45-208 (annual).

This publication contains sales by kind of consumer, i.e. residential, industrial, government etc., by product, by province or region and is a further extension of the sales as published in the monthly and annual Refined Petroleum Products.

- (c) Canadian Crude oil Requirements (quarterly), Service Bulletin, Catalogue No. 57-002.

SYMBOLS

The interpretation of the symbols used throughout this publication is as follows:

- ... figures not applicable.
- nil.

1. Importation de produits pétroliers, Canada

En partie, les différences entre les chiffres du Tableau 3 sur les importations et ceux du Tableau 4 (calculés par la Division du commerce extérieur du Bureau fédéral de la statistique à partir des documents des Douanes) résultent des délais.

Les facteurs en présence sont les suivants:

- (a) La date finale pour l'assemblage des éléments à la Division du commerce extérieur est le 25 de chaque mois, alors que la statistique des importations du Tableau 3 est arrêtée au mois civil.
- (b) Il arrive que les raffineries qui participent à l'enquête de la Division des industries manufacturières et primaires déclarent leurs importations sur la base des factures qu'elles ont reçues au cours du mois, alors que le produit reste, en fait, sous caution dans les installations portuaires et ne sera dédouané qu'ultérieurement.
